2B. **Ethical Obligations in the New World of Legal Services Delivery:** As the delivery of legal services continues to occur across traditional jurisdictional boundaries, nationally and internationally, and as the public increasingly acquires services from sources outside the organized bar, the State Bar has a responsibility to:

This commitment will require the State Bar to:

- Support and develop SBA leadership in and outside the state to promote Arizona’s participation in the national legal community.
- Facilitate and support diversity in all Bar programs and activities to ensure that the legal profession reflects the community it serves and is able to competently serve all segments of the community.

4A. **Access to Justice:** The Supreme Court of Arizona and the State Bar stand united in seeking and supporting opportunities to improve access to our legal system for all Arizonans, including those in rural counties. In meeting this challenge the State Bar will:

- Monitor and evaluate evolving legal trends that affect the public.
- Determine the Bar’s role in protecting the public beyond services delivered by licensed attorneys.

The State Bar will continue to educate the public and elected officials on the importance of an independent judiciary and retention of merit selection.

Demonstrate excellence in every area: operations, programs, resource management, policy and planning, and citizenship.

5A. **Employer of Choice:** The quality of the professional staff and volunteers that serve the Bar are essential to meeting its mission and goals. Our Five-Year Vision 2015-2019

A strategic plan starts with an organization’s goals, reflects trends in the industry, and establishes measurable objectives against which the organization and its staff can be judged. The Bar’s progress in meeting the goals of the 2015-2019 Strategic Plan will be published in subsequent Annual Reports, available online to all members and the public.

In 2014 the Board of Governors tasked its Strategic Planning Committee with building on the previous five-year vision of the State Bar. Like the previous version, the 2015-2019 plan focuses on four professional goals outlined in the Mission of the State Bar of Arizona: competency, ethics, professionalism, and administration of and access to justice. It then adds a fifth goal, organizational excellence, which speaks to the appropriate allocation of human, technological, and physical resources necessary to drive the organization. All Board members, staff, and members of the Bar were invited to weigh in on the specific objectives targeted for the next five year period. Their comments are reflected in the final document.

The past five years have seen an increase in the number of active members of the State Bar of Arizona, enhanced offerings of CLE seminars and publications, and broader member services including the recent addition of section online communities. During the coming year, you will see a number of improvements to include a refresh of our website and the reengineering of our Law Office Management Assistance Program (Practice 2.0.) This is your Bar, and we will continue to be responsive to your professional needs as we work toward meeting the goals of the 2015-2019 Strategic Plan.
