Judges, in upholding the rule of law, critically affect every area of American life including the economy, property rights, personal liberty, and democratic values. These Distinguished Speakers will analyze issues which are not only key for lawyers, but also important for business leaders and other citizens. These include key issues facing business; how companies and other groups can be effectively represented in court; and what resources are needed for efficient operation of the courts to enhance timeliness and reduce the cost of litigation for the parties.

A unique series of parallel events with Chief Justices are being held in major cities nationwide. The transcript of this event will be made available electronically. The Directors Roundtable Institute is a not-for-profit which organizes worldwide programming for Directors and their advisors.
