POLICY DISCUSSION
Phishing Attacks Against Board Members – Rick DeBruhl
• Phishing by definition is a fraudulent practice of sending emails purporting to be from reputable companies in order to induce individuals to reveal personal information, such as passwords or credit card numbers. They target large numbers, whereas, spear phishing is more targeted fraudulent emails ostensibly from a known or trusted sender in order to induce targeted individuals to reveal confidential information.
• Board members have experienced several spear phishing attacks. Should Board members’ email addresses be removed from the Governors’ web page? An alternate to reaching a Board member(s) would be to provide an online comment box, with the message being forwarded to the Board member(s).
• Previously the Board considered this issue and voted to keep their email addresses on the website in order to provide easy access to stakeholders to communicate with the Board.
• Scheduled for a vote at the September Board meeting.

Rules of Order Policy – Lisa Panahi/John Phelps/Jessica Sanchez
• This policy relates to the proposed bylaw amendments
• The Rules of Order Policy addresses how Board meetings are run.
